# Tools cut better with TIGRA

## **TIGRA – A family owned company with the tradition of putting your needs first**

Since its foundation 25 years ago, TIGRA has expanded at a rapid pace. We have been recognized with prestigious Economic Awards for being the most innovative regional company in Bavaria and obtained certification to become a training enterprise. We are very proud of this honor we achieved by using the resources of being a medium-sized company and our model character that has always been a part of our company. From our inception, TIGRA has specialized in the production of tungsten carbide for tools in the woodworking industry. Due to our method of business using our comprehensive knowledge of tungsten carbide production, innovative self-developments, and the latest technologies in manufacturing today, we have captivated the market. While constantly striving to meet the requests of our customers, we continue to effectively exhibit the most modern, highly automated pressing, sintering, grinding and packaging equipment with built in camera systems for quality control. Presently an efficient, organized, and talented sales and service team supply customers in over 70 countries with an extremely extensive and world-wide unique product program of precision cutting inserts and wear parts. Headquartered in Bavaria, with reliable international partners and daughter companies in the USA, Brazil, and China, the company underlines its constant demand for expansion. The two Managing Directors Helge Motzer, and son Bernd Motzer, are in complete agreement regarding the further development of their enterprise. The individuality, quality, speed, favorable pricing and reliability are some of the decisive factors keeping us ahead of our competition. We will continue to strive to fulfill every need of our customers worldwide, and to exceed all expectations and find new and improved methods, products and services to grow with our customers in the future.

## **TIGRA – ein Familienunternehmen mit Tradition**

Seit Firmengründung vor 25 Jahren führt TIGRAs Weg ständig nach oben. Auszeichnungen als innovativstes Wirtschaftsunternehmen der Region und als ein Ausbildungsbetrieb mit Vorbildfunktion heben den besonderen Charakter des mittelständischen Unternehmens hervor. Schon von Beginn an hat sich TIGRA auf die Herstellung und Bearbeitung von Hartmetall für die Werkzeugindustrie der Holzverarbeitung spezialisiert. Dank des umfassenden Know how auf dem Gebiet der Hartmetallherstellung und -bearbeitung besticht das Unternehmen heute durch innovative Eigenentwicklungen und neueste Technologien in der Fertigung. Immer mit dem Streben, Kundenwünsche noch effektiver umsetzen zu können, weist TIGRA heute die modernsten, hoch automatisierten Press-, Sinter-, Schleif-, Bearbeitungs- und Verpackungseinrichtungen auf. Inzwischen versorgt ein weltweit effizient organisiertes Serviceteam Kunden in über 70 Ländern mit einem äußerst umfangreichen und weltweit einmaligen Produktprogramm an hochwertigen Präzisions-Schneideinsätzen und Verschleißteilen. Mit Stammsitz in Bayern, international zuverlässigen Partnern und Tochterunternehmen in den USA, Brasilien und China unterstreicht das Unternehmen seinen steten Willen zur Expansion. Und die beiden Geschäftsführer, Helge Motzer und Sohn Bernd Motzer, sind sich absolut einig, wenn es um die weitere Entwicklung des Unternehmens geht: „Individualität, Qualität und Schnelligkeit bei günstigen Preisen sind die entscheidenden Faktoren, um auch künftig den Wettbewerb mehr als in Schach zu halten und zu den Besten der Branche zu gehören. Wir werden alles dafür tun, um weltweit unsere Kunden weiter zufrieden zu stellen.“

## **TIGRA – une tradition familiale**

Depuis sa création il y a un quart de siècle, TIGRA n'a cessé de gravir les échelons de la qualité et de la renommée. Les nombreuses récompenses qu'elle a remportées – elle a été couronnée entreprise la plus innovante de la région et centre de formation modèle – sont autant de preuves du caractère d'exception de cette entreprise de taille moyenne. Dès ses débuts, TIGRA s'est spécialisée dans la fabrication et l'usinage de carbures destinés aux outilleurs de l'industrie du bois. Grâce à son vaste savoir-faire dans ce domaine, l'entreprise séduit aujourd'hui par ses innovations et ses technologies de pointe en matière de fabrication. La sophistication de son parc de machines - presses, fours à frittage, centres d'usinage et machines à emballer - illustre la volonté de TIGRA de répondre avec toujours plus d'efficacité aux attentes de ses clients. Dans l'intervalle, l'entreprise s'est enrichie à l'échelon international d'un service clientèle hautement efficace et organisé, qui lui permet de fournir ses clients en pièces d'usure et en plaquettes de coupe de très grande précision dans plus de 70 pays. Avec son siège social en Bavière, ses partenaires internationaux et ses filiales aux Etats-Unis, au Brésil et en Chine, TIGRA affirme sa volonté permanente d'expansion. Et les deux directeurs, Helge Motzer et son fils Bernd, mus par le même désir de développer l'entreprise, affirment à l'unisson: „Individualité, qualité et rapidité à prix modéré - qui ont assis notre réputation d'excellence – resteront les valeurs essentielles qui nous permettront encore et toujours de tenir la concurrence en échec. Nous n'aurons cessé de mettre tout en oeuvre pour continuer à satisfaire tous nos clients à travers le monde.“

## **TIGRA – una società a conduzione familiare dalla lunga tradizione**

Sin dalla sua fondazione, 25 anni fa, la strada percorsa della TIGRA ha sempre puntato in alto. Riconoscimenti come azienda più innovativa della regione e come società formativa, dal carattere esemplare, sottolineano perfettamente la personalità di questa impresa medio-piccola. Da subito, TIGRA si è specializzata nella produzione e nel trattamento di metalli duri destinati all'industria degli utensili per la lavorazione del legno. Grazie al vasto know-how nel campo della produzione e del trattamento di metalli duri,

l'azienda si contraddistingue oggi per innovazioni proprie e per le tecnologie d'avanguardia nell'ambito della fabbricazione. Aspirando continuamente a soddisfare in modo sempre più efficace le esigenze dei propri clienti, TIGRA vanta le tecnologie di stampaggio, sinterizzazione, lavorazione e confezionamento più moderne e automatizzate. Con un programma di inserti di precisione e pezzi di usura straordinariamente ampio e unico nel suo genere, il gruppo di assistenza TIGRA, organizzato con efficienza in tutto il mondo, offre supporto ai suoi clienti in oltre 70 paesi diversi. La volontà di espansione dell'azienda viene dimostrata attraverso una sede in Baviera, così come partner e consociate affidabili a livello internazionale negli USA, in Brasile e in Cina. E i due amministratori – Helge Motzer e il figlio Bernd Motzer – sono assolutamente d'accordo quando si parla dell'ulteriore sviluppo aziendale: "Individualità, qualità e rapidità, abbinate a prezzi vantaggiosi, rappresentano i fattori decisivi per tenere a bada, anche in futuro, la concorrenza ed essere annoverati fra i migliori del settore. Faremo il possibile per continuare a soddisfare i nostri clienti in tutto il mondo."

### **TIGRA – una empresa familiar con tradición**

Desde su fundación hace 25 años, el ascenso de TIGRA por la vía del éxito ha sido imparable. Las menciones obtenidas como empresa más innovadora de la región y como centro modélico para la capacitación de profesionales vienen a resaltar la especial forma de ser de ésta empresa. TIGRA se ha especializado, desde el principio en la fabricación y elaboración de metal duro para la industria de herramientas de mecanizado de la madera, sector en el cual sobresale, además de por sus profundos conocimientos técnicos, por el desarrollo de creaciones propias y la aplicación de las más avanzadas tecnologías en el proceso de fabricación. TIGRA dispone de los más modernos y automatizados equipos de prensado, sintetizado, elaboración y empaquetado para poder llevar a la realidad, de forma cada vez más efectiva, los deseos de sus clientes. A través de su eficaz red mundial de servicio proporciona a sus clientes, repartidos en más de 70 países, un amplísimo y exclusivo catálogo de productos, en el que se encuentran piezas de corte de precisión y de desgaste de gran calidad. Una red de socios y filiales de primer orden extendida por los Estados Unidos, Brasil y China da fe de la permanente voluntad de expansión de esta empresa cuya sede principal se encuentra en Baviera. Los dos directores de la empresa, Helge Motzer y su hijo Bernd Motzer, coinciden en señalar que, tratándose del desarrollo futuro de la misma, "individualidad, calidad, rapidez y precios asequibles son factores decisivos a la hora de mantener más que a raya, hoy y mañana, a la competencia y pertenecer a los mejores del sector. Haremos todo lo necesario para seguir satisfaciendo a nuestros clientes en todo el mundo."

-  The modern carbide technology classifies tungsten carbide in grain size and binder content (included in the name).
-  In der modernen Hartmetalltechnologie werden die Hartmetalle nach Korngrößen und Bindergehalt klassifiziert (im Namen enthalten).
-  La technologie moderne classifie les carbures en fonction de la grosseur du grain et de la teneur en liant de sa composition.
-  La moderna tecnologia dei metalli duri classifica quest'ultimi in base alla grossezza del grano e alla percentuale di legante.
-  La tecnologia moderna de metal duro lo clasifica según el tamaño el grano y la proporción de ligante.

-  Blanks for profiling
-  Blanketts zum Profilieren
-  Plaquettes à profiler
-  Placchette da profilare
-  Placas para perfilar

-  **Dimensions:** The following pages represent only a small standard part of our extensive delivery program. Additionally TIGRA supplies almost any special dimension or execution upon customer request.

**Carbide grades:** The blanks are available in all required carbide grades. By using the optimum carbide grade you are able to give to your customers the optimum in lifetime and surface quality.

**Preprofiled blanks:** With the use of preformed blanks the time-consuming roughing or wire cutting process is eliminated. You can immediately start finish grinding and therefore you save the majority of the normal profiling cost.
-  **Abmessungen:** Die folgenden Seiten stellen nur einen kleinen Ausschnitt unseres Lieferprogramms dar. Zusätzlich liefert TIGRA fast jede Art von Sonderausführung nach Kundenwunsch.

**Hartmetallsorten:** Blanketts sind in allen gewünschten Hartmetallsorten lieferbar. Durch Verwendung der optimalen Hartmetallsorte können Sie Ihren Kunden stets ein Optimum an Standzeit und Oberflächengüte bieten.

**Vorprofilierter Blanketts:** Mit der Verwendung vorprofilierter Blanketts entfällt der zeitraubende Schrumpfvorgang bzw. das Drahtschneiden. Sie können sofort mit dem Schlichten beginnen und sparen so den größten Teil der Profilierkosten ein.
-  **Dimensions:** Les pages suivantes seulement présentent un petit extrait de notre gamme. TIGRA est également en mesure de fournir quasiment n'importe quelle exécution spéciale sur demande du client.

**Types de carbures:** Les ébauches sont disponibles dans tous les types de carbures souhaités. En utilisant des types de carbures optimaux, vous serez toujours en mesure d'offrir à vos clients le meilleur niveau de durabilité et de qualité de surface.

**Plaquettes à profiler:** L'utilisation d'ébauches préprofilées permet de supprimer les longues opérations de dégrossissage ou de coupe au fil. Vous pouvez immédiatement commencer la finition et économiser ainsi une grande partie des coûts de profilage.
-  **Misure:** Le pagine successive contengono solo una parte del nostro assortimento. In caso di necessità, TIGRA soddisfa ogni tipo di richiesta di produzione, anche di articoli con dimensioni particolari.

**Tipi di metallo duro:** Le placchette da profilare possono essere fornite in tutti i tipi di metallo duro desiderati. Anche in questo settore potete offrire ai Vostri clienti la soluzione ottimale in termini di tecnica applicativa.

**Placchette presagomate:** Con l'uso delle placchette presagomate non serve sgrossare. Potete cominciare subito con la finitura e ridurre una buona parte dei costi di profilatura.
-  **Dimensiones:** La páginas siguientes incluyen solamente una pequeña parte de nuestro programa de suministro. TIGRA fabrica prácticamente cualquier modelo especial a medida.

**Calidades de metal duro:** Disponemos de placas de todas las calidades de metal duro. Utilizando la calidad adecuada, podrá ofrecer a sus clientes rendimientos óptimos en duración y calidad superficial.

**Placas preperfiladas:** Las placas preperfiladas eliminan la costosa fase de desbastado resp. electroerosión a hilo. Podrá pasar directamente a la fase de acabado, eliminando así la mayor parte del coste correspondiente a la operación de perfilado.

 **TIGRALloy**, a cutting material, consisting of a mixture of hard chromium and tungsten carbide that are embedded in a tough cobalt matrix. This results in an ideal combination of high hardness and high toughness.

Therefore TIGRALloy is an ideal cutting material for many kinds of solid wood. In addition to the good wear resistance, there is a high heat resistance. Very good brazability affords the opportunity to grind extremely sharp cutting edges.

**Characteristics:**

Hardness: 60 HRC - Heat resistance: up to 800°C / 1500°F - Highly corrosion resistant - Extremely shock proof

 **TIGRALloy** besteht aus harten Chrom- und Wolframkarbiden, die in einer zähen Kobaltmatrix eingelagert sind. Daraus entsteht eine ideale Kombination von hoher Härte und besonders guter Zähigkeit. TIGRALloy ist damit ein idealer Schneidstoff für die Bearbeitung vieler Massivhölzer. Zu einer hohen Verschleißfestigkeit kommt eine hohe Hitzebeständigkeit, eine sehr gute Lötbarkeit und die Möglichkeit, mit sehr scharfen Schneidkanten zu arbeiten.

**Eigenschaften:**

Härte: 60 HRC - Hitzebeständigkeit: bis 800°C - Sehr korrosionsbeständig - Hohe Bruchfestigkeit

 **TIGRALloy** est constitué de carbures de chrome et de tungstène durs qui sont logés dans une matrice de cobalt résistante. TIGRALloy est ainsi un matériau de coupe idéal pour l'usinage de nombreux bois massifs. Outre une grande résistance à l'usure, il présente également une forte résistance à l'échauffement, une excellente brasabilité et la possibilité de travailler avec des arêtes de coupe très vives.

**Propriétés:**

Dureté: 60 HRC - Résistance à la chaleur: jusqu'à 800°C - Très résistant à la corrosion - Grande résistance à la rupture

 **TIGRALloy** è composta da carburo duro di cromo e tungsteno, incastonati in una matrice di cobalto tenace. Una combinazione ideale di durezza e di resistenza. TIGRALloy è oltretutto materiale ideale al taglio di molti tipi particolari di legno. La buona resistenza all'usura nonché la grande resistenza termica e alla saldobrasatura permettono l'uso di taglienti molto affilati.

**Caratteristiche:**

Durezza: 60 HRC - Resistenza termica: fino a 800°C - Alta resistenza alla corrosione - Alta resistenza alla flessione

 **TIGRALloy** se compone de carburos duros de cromo y volframio que están depositados en una matriz de cobalto resistente. Así se consigue una combinación ideal de alta dureza y de resistencia especialmente buena. Por lo tanto, TIGRALloy es un material de corte ideal para el labrado de muchas maderas macizas. A esa alta resistencia de desgaste se añade una alta resistencia refractaria, una buena soldadura y la posibilidad de trabajar con aristas cortantes muy vivas.

**Propiedades:**

Dureza: 60 HRC - Resistencia a calor hasta 800°C - Alta resistencia a la corrosión - Alte resistencia a la rotura

 **Preforms for brazed cutters**

Using preformed tips for your brazed cutters you will save the expensive roughing time and grinding wheel cost. TIGRA can supply almost any kind of preformed tip, according to the customer's drawing or DXF file. Small quantities for urgent special tools can be delivered from our quick delivery service within one week.

 **Formplatten für gelötete Fräser**

Durch die Verwendung vorgeformter Hartmetallplatten sparen Sie teure Schruppzeiten und Kosten für die Schleifscheiben. TIGRA liefert nahezu jede vorgeformte Platte nach Kundenzeichnung oder DXF-Datei. Kleinserien für eilige Sonderwerkzeuge liefert unser Schnelldienst innerhalb von einer Woche.

 **Plaquettes préprofilées pour fraises brasées**

Grâce à l'utilisation de plaquettes en carbure préprofilées, plus besoin de coûteuses opération de dégrossissage ni des frais élevés pour les meules. TIGRA peut fournir pratiquement n'importe quelle plaquette préprofilée d'après le dessin du client ou un fichier DXF. Notre services d'urgence livre de petites séries pour les outils spéciaux urgents en une semaine.

 **Placchette per frese saldobrasate**

Con l'uso delle placchette preformate risparmierete non solo la sgrossatura bensì anche i costi delle mole. TIGRA può fornire quasi ogni tipo di placchetta preformata a seconda delle Vostre richieste ed esigenze (documenti DXF; schizzi). Per ordini urgenti di piccole quantità riguardanti utensili particolari siamo in grado di fornirvi la merce nell'arco di una settimana.

 **Placas de molde para fresas soldadas**

El empleo de placas de metal duro preformadas le permitirá ahorrarse la costosa fase de desbastado y reducir el consumo de muelas. TIGRA puede fabricar prácticamente cualquier tipo de placa preformada en base al plano o fichero DXF del cliente. Si necesitara una herramienta especial con urgencia, nuestro servicio rápido es capaz de fabricar un lote de pocas unidades en una semana.

-  Placas para herramientas soldadas

Profile - Profil - Profil - Profilo - Perfil 1

Profile - Profil - Profil - Profilo - Perfil 2

Profile - Profil - Profil - Profilo - Perfil 3

-  The profile groups 1, 2 and 3 are with chamfers in the profile and/or at the bottom.
-  Die Profilgruppen 1, 2 und 3 haben Fasen im Profil und/oder an der Anschlagkante.
-  Les groupes de profils 1, 2 et 3 ont des biseaux dans le profil et/ou au bord de butée.
-  I gruppi di profili 1, 2 e 3 sono provvisti di smussi nel profilo e/o nello spigolo di battuta.
-  Los grupos de perfil tienen 1, 2 y 3 tanto un perfil, como la base biselados.

Profile - Profil - Profil - Profilo - Perfil 4

-  Profile group 4 is without any chamfers and therefore less expensive!
-  Profilgruppe 4 hat keinerlei Fasen. Der Preis dafür ist deutlich günstiger!
-  Les groupes de profils 4 n'a pas de biseaux. Le prix de ce modèle est de ce fait bien plus avantageux!
-  Il gruppo di profili 4 non è provvisto di smussi ed ha pertanto un prezzo notevolmente inferiore!
-  El grupo de perfil 4 non tiene ningun bisel. El precio de este modelo sera muy ventajoso para vds!

-  Carbide tips for router bits
-  HM-Rohlinge für Oberfräser
-  Ebauches pour méches à défoncer
-  Placchette sagomate per punte
-  Placas de metal duro para equipar fresas

 **Preforms for router bits**

Carbide tips for router bits are available preformed in almost any sizes or executions, as per customer's drawing or DXF file, also for small quantities. Your production cost for router bits will be reduced by saving the cost for cutting, wire cutting, roughing and diamond wheels. Small quantities for urgent special tools are supplied from our quick delivery service within only one week.

 **Platten für Oberfräser**

Hartmetallplatten für Oberfräser sind vorgeformt in fast allen Größen und Ausführungen nach Kundenzeichnung oder DXF-Datei lieferbar, auch für Kleinserien. So sparen Sie auch bei der Herstellung von Oberfräsern die Kosten für das Trennen, Drahtschneiden oder Schruppen sowie Kosten für Schleifscheiben. Kleinserien für eilige Sonderwerkzeuge liefert unser Schnelldienst innerhalb von einer Woche.

 **Plaquettes pour défonceuse**

Les plaquettes au carbure pour défonceuse peuvent être livrées préfaçonnées dans pratiquement toutes les tailles et exécutions d'après le dessin du client ou un fichier DXF, même en petites séries. Vous économisez ainsi les frais de tronçonnage, de meules abrasive même lors de la fabrication d'outil pour défonceuses. Notre service d'urgence livre de petites séries pour les outils spéciaux urgents en une semaine.

 **Placchette sagomate per punte**

Le placchette sagomate per punte sono disponibili in quasi ogni misura secondo disegno o documento DXF, anche in quantità minime. Risparmiate i costi di tagli, sgrossatura e delle mole per la produzione delle punte. Per ordini urgenti di piccole quantità riguardanti utensili particolari siamo in grado di fornirvi la merce in una settimana.

 **Placas para fresas de cajeadora**

Podemos suministrar placas de metal duro preformadas para fresas de cajeadora de cualquier tamaño y modelo en base al plano o diseño en formato DXF del cliente, incluso lotes de volumen reducido. Se ahorrará así las operaciones de corte, electroerosión o debastado y podrá reducir el consumo de muelas. Si necesitara una herramienta especial con urgencia, nuestro servicio rápido es capaz de fabricar un lote de tamaño reducido en una semana.

 Knives for planing systems

 Messer für Hobelsysteme

 Couteaux pour outils à raboter

 Coltelli per sistemi da pialla

 Cuchillas para cepillar

#### **Optimized distribution of hardness**

The unique manufacturing process maneuvers hardness to where it belongs: the cutting edge. The core of the knife remains soft to help protect against breakage and to also increase the ease of an eventual straightening.

#### **Optimierte Härteverteilung**

Durch das spezielle Herstellungsverfahren wird die Härte genau dort hin gebracht, wo sie auch benötigt wird: in die Schneidkante. Der Kern des Messers bleibt weich und flexibel, was Bruch vorbeugt und das eventuelle Richten nach dem Nachschärfen vereinfacht.

#### **Répartition optimale de la dureté**

Grâce au procédé de fabrication spécial, la dureté est là où besoin en est: au niveau du tranchant. Le noyau du couteau reste souple et flexible, ce qui prévient la rupture et simplifie l'ajustement après le réaffûtage.

#### **Migliorata distribuzione della durezza**

Grazie ad una speciale produzione, la durezza del coltello è là dove è maggiormente richiesta, sul tagliente. La parte centrale del coltello rimane più morbida e flessibile, si evitano così rotture e la riaffilatura è più semplice.

#### **Distribucion optimizada de la Dureza**

El exclusivo proceso permite distribuir la dureza en el filo de corte. El nucleo de la cuchilla permanece tenaz ayudando a evitar la rotura así como permitiendo la planitud del cuerpo de la placa.

#### **Polished cutting edge**

For an extra-aggressive cut in the wood, the cutting edge has a second, partial polish grind.

#### **Polierte Schneidkante**

Für einen besonders giftigen Eingriff im Holz und eine sehr gute Holzoberfläche hat die Schneidkante einen zweiten, polierten Schliff.

#### **Tranchant poli**

Le tranchant bénéficie d'un deuxième polissage, pour une coupe particulièrement nette et une très bonne surface de bois.

#### **Tagliente parzialmente lappato**

Per un taglio su legno più preciso e affilato, il tagliente è parzialmente lappato.

#### **Lapeado del flanco de corte**

Para condiciones severas de corte en la madera, el filo de corte dispone de un doble acabado lapeado.

#### **Black Oxide Surface**

The thin black surface layer of ferric oxide, only nanometers thick, runs across the top and bottom. This improves corrosion resistance and prevents early rusting.

#### **Black Oxide Surface**

Die wenige Nanometer starke, schwarze Schicht aus Eisenoxyd auf Ober- und Unterseite macht das Messer beständiger gegen Korrosion und verhindert frühzeitiges Rosten.

#### **Black Oxide Surface**

La couche noire en oxyde de fer, d'une épaisseur de quelques nanomètres sur le dessus et le dessous rend le couteau plus résistant contre la corrosion et la rouille anticipée.

#### **Superficie „Black Oxide“**

La sottile superficie di ossido nero di ferro, rende il coltello più resistente alla corrosione e alla ruggine.

#### **Recubrimiento superficial-„Black Oxide“**

La superficie exterior permanece recubierta de oxido ferrico con espesores de nanómetros, mejorando la resistencia a la corrosion.

-  Knives for planing systems
-  Messer für Hobelsysteme
-  Couteaux pour outils à raboter
-  Coltelli per sistemi da pialla
-  Cuchillas para cepillar

## Advantages

### Eco-friendly

As compared to knives ground from solid steel bars, the special manufacturing of this product consumes up to 30% less raw material, helping to avoid waste. Additionally, compared to traditional production methods, the energy consumption is up to 50% lower. These eco-friendly features help save the environment.

### Highest European quality

As always with TIGRA, our knives are of the highest European quality, manufactured on the most modern production lines.

### Real High Speed Steel

Real HSS for a long lifetime!

### Excellent pricing

In addition to these advantages, we offer the „black oxide“ knives at an unbeatable price!

## Vorteile

### Ökologisch sinnvoll

Im Vergleich zu aus Vollstahl geschliffenen Messern verbraucht die besondere Herstellmethode bis zu 30% weniger Rohstoffe und vermeidet so Abfälle. Zusätzlich sinkt der Energiebedarf bei der Herstellung um bis zu 50%! Das entlastet die Umwelt.

### Europäische Spitzenqualität

Wie immer bei TIGRA handelt es sich auch bei den unseren HSS-Messern um ein europäisches Spitzenprodukt, welches auf modernsten Anlagen gefertigt wird.

### Echtes HSS

Echtes HSS für hohe Standwege.

### Unschlagbar günstiger Preis

Trotz all der genannten Vorteile können wir Ihnen diese HSS-Messer zu einem noch günstigeren Preis anbieten, der Sie sofort überzeugt.

## Avantages

### Ecologiquement judicieux

La méthode de production particulière utilise jusqu'à 30% moins de matières premières que les couteaux rectifiés en acier entier. Les déchets sont ainsi évités. En plus, lors de la fabrication, la consommation d'énergie baisse jusqu'à 50%! L'environnement est soulagé.

### L'excellence de la qualité européenne

Comme toujours chez TIGRA, pour les couteaux HSS, il s'agit d'un produit européen haut de gamme, fabriqué par les systèmes les plus modernes.

### HSS véritable

HSS véritable pour une tenue d'outil importante.

### Un prix imbattable défiant toute concurrence

Malgré tous les avantages énumérés, nous sommes en mesure de vous proposer ces couteaux HSS à un prix encore plus avantageux qui va vous séduire immédiatement.

## Vantaggi

### Ecologia a tutela dell'ambiente

Paragonati alla produzione di coltelli in acciaio rettificati, questa produzione fa risparmiare il 30% di materie prime e riduce quindi le scorie. Inoltre, il risparmio di energia è del 50%. Tutto questo tutela l'ambiente.

### All'apice della qualità europea

Anche per i coltelli in qualità HSS, la Tigra garantisce una qualità eccellente, grazie alla produzione su impianti moderni ed altamente tecnologici.

### Vero acciaio super rapido

Vero HSS per una prestazione di lunga durata.

### Prezzi imbattibili

Nonostante l'eccellente qualità, i prezzi dei coltelli in qualità HSS sono imbattibili e ancora più convenienti.

## Gabelas

### Eco-friendly – Ecologico

La producción de estas cuchillas se realiza utilizando materias primas de forma eficiente, permitiendo evitar mermas de material, ahorrando mas del 30% de materia prima. Igualmente se obtienen mejoras en los consumos de energia por encima del 50% comparados con los metodos tradicionales de manufacturación. Estas características permiten preservar el medio ambiente.

### Excelente Calidad Europea

Los metodos de elaboracion productivos a disposicion de TIGRA GmbH, permiten garantizar unos elevados niveles de calidad en sus productos.

### Acero SuperAleado de Calidad Contrastada

HSS real para mas durabilidad.

### Tarifas y Condiciones optimas

Las cuchillas recubiertas „black oxide“ ofrecen indudables ventajas, incluido sus condiciones economicas.

 TIGRA is one of the leading suppliers of inserts for back corrugated cutterheads. Our wide range of blanks includes:

**HSS:** the classic blank for corrugated cutterheads:

- High Quality German manufactured steel
- Precision-ground corrugation
- Excellent grindability
- Available from stock

**High Performance Steel:** the economic alternative to HSS:

- High Quality German manufactured steel
- Very good lifetime in most applications
- Lower price than standard HSS
- Easier to cut than HSS
- Precision-ground corrugation

**T.C.T.:** Brazed-on carbide where the lifetime of HSS and High Performance Steel is not sufficient

- Very long lifetime
- High hardness
- High quality

**SuperPac:** the high-end blank that enables multiple regrinds because of the precise corrugation in the carbide blank. SuperPac is available in different carbide grades for longest lifetime, even in MDF. Best price-performance ratio!

 TIGRA ist einer der führenden Lieferanten von Schneideinsätzen für rückenverzahnte Messerköpfe. Unser umfassendes Programm an Blanketts beinhaltet:

**HSS:** das klassische Blankett für rückenverzahnte Messerköpfe:

- Hohe Qualität durch deutschen Stahl
- Präzisiongeschliffene Verzahnung
- Exzellente Schleifeigenschaften
- Ab Lager verfügbar

**High Performance Steel:** die günstige Alternative zu HSS:

- Hohe Qualität durch deutschen Stahl
- Sehr gute Standzeiten in den meisten Anwendungen
- Günstiger als Standard-HSS
- Einfacher zu trennen als HSS
- Präzisiongeschliffene Verzahnung

**Hartmetallbestückt:** Aufgelötetes Hartmetall wo immer die Standzeiten von HSS und High Performance Steel nicht ausreichen:

- Sehr lange Standzeit
- Hohe Härte
- Hervorragende Qualität

**SuperPac:** das Top-Blankett, das dank der hoch präzisen Verzahnung vielfach nachschleifbar ist. SuperPac ist in verschiedenen Hartmetallsorten erhältlich und garantiert längste Standzeiten, auch in MDF. Bestes Preis-Leistungsverhältnis!

 TIGRA est l'un des plus grands fournisseurs d'outils de coupe pour axes crantés. Notre vaste gamme de plaquettes inclut :

**HSS:** la plaquette de coupe classique pour les porte-outils crantés a de nombreux atouts :

- Qualité élevée de l'acier d'origine allemande
- Crantage affilée pour haute précision
- Excellentes propriétés de rectification
- Disponible sur stock

**High Performance Steel (acier à haute performance) :** l'alternative économique a HSS

- Qualité élevée de l'acier d'origine allemande
- Très résistante dans la majorité des applications
- Moins chère que le HSS standard
- Plus facile à couper que le HSS
- Crantage affilée pour haute précision

**Outils rapportés en carbure brasé** là où la durée de coupe des HSS et High Performance Steel n'est pas suffisante :

- Très grande longévité
- Dureté élevée
- Qualité supérieure

-  Knives for back corrugated cutterheads
-  Messer für rückenverzahnte Messerköpfe
-  Couteaux pour outils crantés
-  Coltelli per teste con rigatura
-  Cuchillas corrugadas

**SuperPac:**

le nec plus ultra de la plaquette de coupe que la précision de son crantage permet de réaffûter de multiples fois. SuperPac est également disponible en plusieurs qualités de métal différentes et garantit des durées de coupe plus longues, même sur des MDF. Le mieux rapport qualité-prix!

-  TIGRA è uno dei fornitori leader di inserti per teste portafrese a coltelli dentati sul lato interno. Il nostro ampio programma di inserti greggi comprende:

**HSS:** l'inserto classico per teste con zigrinatura

- Alta qualità grazie all'acciaio tedesco
- Zigrinatura rettificata per tolleranze elevate
- Eccellenti proprietà di rettifica
- Disponibili per pronta consegna

**High Performance Steel:** l'alternativa economica all' HSS

- Alta qualità grazie all'acciaio tedesco
- Lunga durata per gran parte delle applicazioni
- Maggiore convenienza del prezzo rispetto ai prodotti standard HSS
- Maggiore semplicità di troncatura rispetto ai prodotti HSS
- Zigrinatura rettificata per tolleranze elevate

**TCT (riportato metallo duro):** metallo duro saldato per applicazioni in cui la durata di HSS e di High Performance Steel non è sufficiente:

- Elevatissima durata
- Elevata durezza
- Massima qualità

**SuperPac:** l'inserto greggio top più volte riaffilabile grazie alla dentatura altamente precisa. SuperPac è disponibile in diversi tipi di metallo duro e garantisce la massima durata, anche in MDF. Migliore rapporto qualità/prezzo!

-  TIGRA es uno de los principales fabricantes de insertos cortantes para cuchillas de lomo dentado. Nuestro exhaustivo programa de piezas en bruto comprende:

**HSS:** La pieza en bruto clásica para cuchillas de lomo dentado:

- Mejor calidad gracias al empleo de acero alemán
- Mayor tolerancia y dentado sumamente preciso
- Excelentes propiedades de rectificado
- Disponible de almacén

**High Performance Steel:** Nuestra alternativa económica a HSS

- Mejor calidad gracias al empleo de acero alemán
- Vida útil muy buena en la mayor parte de las aplicaciones
- Más económico que el acero HSS estándar
- Más fácil de cortar que el acero HSS
- Mayor tolerancia y dentado sumamente preciso

**Con dotación de metal duro (TCT):** Metal duro fijado por soldadura para aplicaciones que requieran una vida útil más prolongada que la que ofrecen las calidades HSS y High Performance Steel:

- Vida útil muy prolongada
- Máxima dureza
- Óptima calidad

**SuperPac:** La pieza en bruto de alta calidad y dentado preciso que admite múltiple rectificado. SuperPac se ofrece en diversos tipos de metal duro y avala una prolongada vida útil, también en MDF. La mejor relación precio-rendimiento.

 Rods  Rundstäbe  Barreaux cylindriques  Cilindri  Barras redondas	Main usage Hauptanwendung Principal usage Main uso Usó principal
T06CR	Highly abrasive wood materials, like chipboard. For drilling and milling (larger diameters only) Stark abrasive Materialien wie Spanplatte. Zum Bohren und Fräsen (nur größere Durchmesser) Materiaux très abrasifs comme panneau. Pour forer et fraiser (seulement grand diamètres) Materiali abrasivi come il truciolare, da forare e fresare (solo diametri spessi) Superabrasivo madera, como aglomerados. Para taladrado y fresado (grandes diámetros)
T06MG	Hard wood-based materials, plastics, graphite, aluminum Harte Materialien auf Holz-Basis, Kunststoffe, Graphit, Aluminium Matériaux à la base de bois, matériaux plastiques, graphite, aluminium Materiali duri legnosi, plastici, graffite, alluminio Materiales derivados de madera , plasticos , graphito, aluminio
T10MG	Universal grade for wood and metal working Universalsorte für die Holz- und Metallbearbeitung Nuance universelle pour le travail du bois et des métaux Qualità universale per la lavorazione del legno e del metallo Grado universal para trabajos de madera y mecanica

 **About TIGRA's PCD:**

In cooperation with the world's largest German-owned PCD manufacturer, TIGRA offers special PCD grades, developed for the need of woodworking tool manufacturers:

- 3 grades for general purpose as well as special applications
- excellent distribution of the diamond grains for repeatable good results
- special binder for high wear resistance and chip protection
- polished, extremely homogeneous PCD layer
- optimized for faster wire cutting and finishing

 **Über TIGRA-PKD:**

In Zusammenarbeit mit dem weltgrößten PKD-Hersteller in deutschem Besitz bietet TIGRA PKD-Sorten an, die speziell auf die Anforderungen der Holzbearbeitung abgestimmt sind:

- 3 Sorten, für universelle wie spezielle Anwendungen
- exzellente Kornverteilung des Diamants für wiederholbar gute Ergebnisse
- spezieller Binder für hohe Verschleißfestigkeit und Bruchsicherheit
- polierte, extrem homogene PKD-Schicht
- optimiert für schnelleres Drahtschneiden und Finishen

 **Concernant le PCD de TIGRA:**

En collaboration avec le plus grand fabricant de PCD en propriété allemande, TIGRA propose des variétés de PCD spécialement adaptées aux exigences du traitement du bois:

- 3 variétés, pour des utilisations universelles et spéciales
- excellente granulométrie du diamant pour de bons résultats répétables
- liant spécial pour une grande résistance à l'usure et une sécurité contre la rupture
- couche PCD polie et extrêmement homogène
- optimisé pour plus de rapidité lors de la coupe au fil et de la finition

 **Relativamente a TIGRA-PCD:**

In collaborazione con il maggior produttore di PCD, di proprietà tedesca, la TIGRA offre qualità specifiche per la lavorazione del legno:

- 3 qualità per applicazioni universali e specifiche
- distribuzione eccellente dei grani per maggiore resistenza all'usura e sicurezza contro le rotture
- rilegatore speciale per maggiore resistenza all'usura e sicurezza contro le rotture
- superficie estremamente omogenea e levigata di PCD
- ottimizzato per un'erosione più veloce e rifinita

 **Relativamente a TIGRA-PCD:**

En colaboración los PCD fabricantes alemanes, TIGRA ofrece PCD calidades especiales, desarrollados bajo especificaciones para las herramientas para la madera:

- 3 calidades para aplicaciones generales y específicos
- distribución homogénea de las partículas de PCD para mejorar la resistencia al desgaste
- ligante especial para alta resistencia al desgaste
- pulido de caras de forma homogénea en la cara del PCD
- optimizado para mejorar el corte por erosión por hilo

-  PCD - Polycrystalline diamond
-  PKD - Polykristalliner Diamant
-  PCD - Diamant policristallin
-  PCD - Diamante policristallino
-  PCD - Diamante policristalino

 Mise en garde

 Avvertenza

 Advertencia

 This catalogue describes cemented carbide products. Grinding of these products will produce dust of potentially hazardous ingredients. Dust from grinding the products described in this catalogue can cause nose, throat, skin and eye irritation and temporary or permanent respiratory disease in a small percentage of exposed individuals. Permanent respiratory disease can lead to disability or death. Coolant mist from wet grinding may contain dust. Avoid prolonged skin contact with dust or mist. Use adequate ventilation when grinding. Maintain dust levels below OSHA and ACGIH levels. Use protective devices. Wash hand thoroughly after handling, before eating or smoking. Dispose of materials according to local, state and/or federal regulations.

 Der Schleifstaub der in diesem Katalog beschriebenen Hartmetallprodukte enthält möglicherweise gesundheitsschädliche Bestandteile. Er kann Nasen-, Atmungs-, Haut- und Augenreizungen auslösen. Dauerhaftes Einatmen kann zu ernsthaften gesundheitlichen Schäden führen. Beim Schleifen mit Kühlung entsteht ein Schlamm, der diesen Staub ebenfalls enthält. Vermeiden Sie das Einatmen von Schleifstaub und Schleifschlamm sowie längeren Hautkontakt. Sorgen Sie für ausreichende Absaugung. Benutzen Sie Schutzvorrichtungen. Waschen Sie sich nach der Berührung sorgfältig die Hände, insbesondere vor dem Essen. Die Entsorgung von Rückständen muss nach den entsprechenden gesetzlichen Vorschriften erfolgen.

 La poussière de meulage des produits en carbure décrits dans ce catalogue risque de contenir des éléments dangereux pour la santé. Elle peut provoquer des irritations du nez, des voies respiratoires, de la peau et des yeux. Une inhalation prolongée peut provoquer de graves problèmes de santé. Pendant le meulage avec refroidissement, il se forme du cambouis qui contient également cette poussière. Evitez d'inhaler la poussière et le cambouis de meulage, ainsi que tout contact prolongé avec la peau. Veillez à ce que leur aspiration soit suffisante. Utilisez des dispositifs de protection. Après tout contact, lavez-vous soigneusement les mains, surtout avant les repas. La mise au rebut des résidus doit se faire conformément aux prescriptions légales en vigueur.

 Il pulviscolo di rettifica del prodotto in metallo duro descritto nel presente catalogo può contenere componenti dannosi per la salute. Può causare irritazione a naso, vie respiratorie, pelle e occhi. L'esposizione prolungata a queste sostanze e la conseguente inalazione possono causare seri danni alla salute. Anche in caso di profilatura a freddo si produce un residuo fangoso che contiene questo pulviscolo. Evitare l'inalazione e il contatto prolungato con la pelle del pulviscolo di rettifica e dei residui. Eseguire un'accurata pulizia e adottare idonee misure di protezione. Lavare accuratamente le mani dopo ogni contatto, soprattutto prima dei pasti. Smaltire i residui in conformità alle normative vigenti in materia.

 En este catálogo se describen productos de metal duro que, durante el lijado, producen un polvo que contiene sustancias nocivas para la salud. Estas sustancias pueden provocar irritación en los ojos, la piel o la nariz y causar problemas respiratorios. Una exposición continuada puede conducir a lesiones físicas graves. Durante el lijado con refrigeración, se produce una pasta que también contiene este polvo. Evite respirar el polvo y la pasta de lijado, así como el contacto prolongado con la piel. Asegúrese de utilizar un sistema de aspiración adecuado. Utilice dispositivos de seguridad. Láve las manos minuciosamente después del contacto, en particular antes de comer. Observe las prescripciones legales correspondientes para la gestión de residuos.
